

# S-VIDEO DISTRIBUTION AMP SVDA10

The GEKCO Video Distribution Amplifier Model SVDA10. The SVDA10 is a 1 input 4 output low cost high performance, DA for general S-video distribution applications. The Y and C gain is adjustable plus or minus 3 db from the front panel. This unit can distribute the output of a VCR or other S-Video source to Switchers, Routers, Monitors and other VCRs while maintaining excellent picture quality.

The SVDA10 is shipped ready to use. The proper Wall transformer is supplied. Simply connect your source to the SVDA10 Input and connect the outputs as needed. Under most circumstances no adjustment is needed. The unit is shipped with gain set for unity. A 1Vp-p input will produce 4 1Vp-p outputs. However if your input level is low or the outputs are driving long (>200 ft.) cables, the Y and C gain may need to be adjusted.

The SVDA10 has separate gain adjustments for outputs 1 & 2 and 3 & 4. A optional equalizing DA, the SEQDA10 is available. This unit provides equalization to up to 1000 ft of RG59U cable. The same separate adjustments apply. A 12VDC supply option is also available. Order part no. SVDA10-12VDC

### Electrical Characteristics

#### Signal

Video Input Connector	One 4-pin mini Din (SVHS)
Outputs	Four 4-pin mini Din
Impedance	75 ohms
Bandwidth	DC- 10 MHz+/- 3dB
Y/C Delay	< 2ns
Gain	+/- 3db
Equalizing option	0 to +12db @ 3.58MHz

#### Power

9VAC Power Transformer  
Optional 12VDC

### Ordering Information

#### Part No.

#### Description

SVDA10	1 Input 4 Output S-Video Distribution Amplifier
SEQDA10	1 Input 4 Output S-Video Equalizing Distribution Amplifier
SVDA-12VDC	12 Volt DC Power Supply Option

### Physical Characteristics

Dimensions	mm	in.
Width	106	4.17"
Height	39	1.52"
Depth	127	5.0"
Weight	kg	lbs
Net	0.48	1.06
Shipping	1.5	3.31
